Mr. Ken Taylor,
180 Macdonald Ave.,
Belleville,

Dear Ken,

I have been wanting to write you a letter for some years, but have only recently come across your home address. Since 4th year at Queen's, I went that summer canoeing for Lands and Forests out of Cochrane. The following winter I attended the Institute of Canadian Studies in a 1 year Master's Program. I wrote my thesis on the Swampy Cree of North Eastern Ontario, particularly the region South of Moosonee. That summer, I again worked for Lands and Forests. The following winter, I attended McArthur at Queen's for a B. Ed, and finished my thesis to obtain my M.A. I again canoed in the Northern James Bay region during the summer, and am teaching in Wawa at Michipicoten High School this winter. I expect I'll continue teaching in Wawa for one or two more years, but am not sure of my plans from then.

I would be interested to hear how your graduate work went, and the interesting northern places that you may have worked in since 1970.

Sincerely,
Don Pugh
Don Pugh.
